

After years of planning, construction is here!

The South Dakota Department of Transportation (SDDOT), the City of Sioux Falls, and D&G Concrete Construction will begin construction on the 41st Street and I-29 Diverging Diamond Interchange.

Improvements to the roadway include:

Widening to three lanes with a raised center median

Underground utility upgrades

Constructing a DDI interchange to create safer left-turns

- SPRING 2022** Reconstruction of the south side of 41st Street starts at Meadow Avenue and progresses to the west.
- SPRING 2022** Marion Road will be closed south of 41st Street for one month.* The detour uses Sertoma Avenue and 57th Street.
- SUMMER 2022** Reconstruction of the north side of 41st Street starts at Meadow Avenue and progresses to the west.*
- FALL 2022** Marion Road will be closed north of 41st Street for one month.* The detour uses Sertoma Avenue and 26th Street.

*Time frames are all approximate, subject to change, and weather and schedule permitting.

PREPARING FOR CONSTRUCTION

After years of planning, construction is here!

Here are just a few of the things the City of Sioux Falls and the SDDOT are doing to make this construction project progress as smoothly as possible:

41st Street lanes west of I-29 will remain open at all times

One lane in each direction and a center turn lane

Monitoring 41st Street intersections with live cameras and making signal adjustments in "real-time"

Adjusting signal timings on alternate routes to compensate for additional traffic

Keeping alternate routes free from construction

Here are some things you can do to prepare for construction:

Review your regular driving routes and plan for alternate routes

Keep speeds down

Adjust travel times to avoid rush hour traffic

Follow the hashtag #41stDDI on social media

Visit the project website for updates

Sign up for project email updates

Plan extra time to allow for traffic delays during rush hour traffic

Allow extra time to get to your destination

Be patient and mindful of construction crews, pedestrians, and other drivers

Scan this QR code with your smartphone to **view** the video showing the various traffic movements.
